SUBJECT INDEX*

A

Alimentary tract in medical genetics (McKusick), 292

Analgesics, two new (dextromoramide and racemoramide), evaluation of, in healthy subjects and in patients with chronic pain (Calesnick), 58

Anatomy, chemical, of connective tissue in rheumatoid arthritis (Dorfman), 403

Announcements, 81, 253, 364, 457, 543

Arthritis, rheumatoid, biochemistry of connective tissue in (Dorfman), 403
- future research in (Thomas), 428
- historical aspects (Short), 367
- immunologic aspects of (Kunkel), 418
- National Foundation conference on, 365-438
- pathogenesis of (Kulka), 388

Atherosclerosis in medical genetics (McKusick), 307
- in patients with hypertension, cause and treatment of (Palmer), 508

Attendance record of employees with cardiovascular disease or diabetes (Wyshak, Snegireff, and Law), 525

Autoantibodies in rheumatoid arthritis (Thomas), 431

B

Biochemical genetics (McKusick), 281

Biochemistry of connective tissue (Dorfman), 403

Biosynthesis of terpenes and sterols (B. rev.), 250

Birth defects involving central nervous system, surgical treatment of (Matson), 131

Blood groups (B. rev.), 250
- in medical genetics (McKusick), 304
- and hematopoietic system in medical genetics (McKusick), 297

Blood—Cont'd
- pressure level, treatment of, by diet supplemented by hypotensive drugs (Palmer), 502
- venous, emotions, and congestive heart failure (White, Martin, and Vernon), 163

Book reviews:
- Biosynthesis of terpenes and sterols (Wolstenholme and O'Connor), 250
- Blood groups, 250
- The degenerative back and its differential diagnosis (Hanraets), 541
